Frida Rukia Albert

Business Manager

Background

Rukia technology: achieving excellence in information and communication services. In 2021, a remarkable journey began with the establishment of Rukia technology by Frida Rukia, a talented female graduate with a bachelor's degree in computer science and information technology from Kampala University. This visionary entrepreneur had a mission to provide top-notch information and communication services to empower individuals and business in South Sudan.

As a female-led business, Rukia technology also aims to inspire and empower women in the field of technology. Frida Rukia's leadership serves as a testament to the capabilities and potential of women in the industry, the business actively promotes diversity and inclusivity, creating an environment where everyone can thrive and contribute their unique perspectives.

With Frida Rukia at the helm, the business has carved a niche for itself in the South Sudanese market, providing top-notch information and communication services. As we continue to grow and evolve, Rukia Technology will undoubtedly play a pivotal role in shaping the future of technology in the region.

Vision statement

At Rukia Technology, we strive to provide innovative and affordable IT solutions that empower our clients and promote sustainable energy practices in South Sudan. We believe in harnessing technology to create a better future for all.

Business mission

We envision a future where technology and renewable energy coexist harmoniously, driving economic growth and improving the quality of life for the people of South Sudan. Our commitment is to lead this transformation with integrity and excellence.

Values

Integrity, innovation, and sustainability are at the heart of Rukia Technology. We are dedicated to delivering high-quality services while maintaining ethical practices and a strong focus on environmental responsibility.

Community Impact

Rukia Technology is committed to making a positive impact in the communities we serve. Through our initiatives, we aim to educate and empower individuals, fostering a culture of innovation and sustainability.

Leadership

Founded by Frida Rukia Albert, our leadership team brings a wealth of experience in technology and renewable energy. We are passionate about driving change and inspiring others to join us on this journey.
